A Federally Recognized Alaska Native Corporation (ANC)

Delta Point LLC is an SBA 8(a) Certified Alaska Native Village Corporation (ANC) and socio-economically disadvantaged small business. Delta Point is entitled to unique privileges under applicable federal regulations. As defined by the SBA, the 8(a) contracting vehicle is a flexible procurement technique that allows the customer sole discretion to choose the specific contractor team, which provides the highest level of customer flexibility to achieve their program goals and objectives. Delta Point delivers a wide spectrum of capabilities to our government and commercial sector customers.

Delta Point, LLC is certified to receive Sole Source Contracts of any value. These sole source awards do not need to be advertised and cannot be protested due to the exclusive privileges under federal regulations

ANC firms such as Delta Point LLC are not subject to the \$4.5 million limitation applicable to other 8(a) entities. (13 CFR 123, 124 and 311b) ANC 8(a) sole-source awards may not be protested. (13 CFR 124.517(a))

A Proven Team Qualified to Lead

Founded in 2018, Delta Point LLC is rapidly becoming one of the Government's contractors of choice when both time and budget are a concern. Unlike many small businesses, we are capable to deliver services to Government clients directly from our highly experienced staff and partners.

Delta Point LLC's proven program management team's expertise includes:

- Information Technology Consulting, Support & Management with Staff Augmentation
- Data Science and Advanced Analytics
- Business Intelligence and Data Visualization
- Physical Infrastructure Security
- Project, Program and Contract Management
- Application Development with Quality Control & Assurance
- Social, Mobile and Cloud Design, Admin Services and Support
- Networking Services and Asset Tracking RFID implementation
- Service-Oriented Architecture

Premier Partners

[Copper River Management Company](#) and its subsidiaries are a premier Delta Point LLC partner. Copper River has deep domain expertise across Federal and Commercial Enterprises, where they leverage best practices and operational expertise in many technology fields.

[BRCI Corp.](#) is a well-known and highly capable partner with Delta Point. BRCI has developed a mission to help government agencies, municipal organizations, and commercial businesses achieve a safe and secure infrastructure by delivering world class IT consultation, security solutions, project management, and professional training. Domain experience of BRCI includes physical security, camera and RFID solutions.

[GlobeLink Telecom](#) is a premier partner for Delta Point LLC and offers design, installation, and commissioning of the complete range of components in wireless telecommunications networks. GlobeLink turnkeys installation for full project life cycle to the cut-over of traffic to long term maintenance including network design, path engineering, site acquisition, tower construction, antenna installation, and radio installation to the demarcation point. GlobeLink commissions and test's systems from 800 MHz to 40 GHz.

[Haystak](#) is Delta Point's preferred solution provider for indexing of all data in documents, databases and metadata for easy search and advanced analysis.

[TechnoGen Inc](#) is our partner with experience in Managed Services, Cloud Infrastructure, Cybersecurity, Blockchain and Big Data Analytics. All services performed with TGI's Management Consulting team using TechnoGen Quality Management system (TQM).
